MANDATORY ANNUAL BACKFLOW TEST DUE

Our records indicate that your back-flow prevention device is due for an annual test. The New York State Department of Health requires that a New York State Back-flow Device tester test your back-flow device annually.

In addition, the Nassau County Health Ordinance, Article VI, Section 15(b) (1) requires that the District discontinue water service to those users who have failed to properly install, maintain, and test a backflow prevention device.

*****IF THE REQUIRED TEST IS NOT RECEIVED WITHIN 30 DAYS OF THE DATE OF THIS LETTER. YOUR ACCOUNT WILL BE CHARGED A \$100.00 ADMINISTRATIVE FEE IN LIEU OF SERVICE TERMINATION.*****

Most licensed plumbers and irrigation companies can complete this test. A list of certified testers is available for review at www.mlwd.net. To avoid a violation and penalty fee, please have your tester complete and submit the required DOH-1013 form within thirty days of this notice!

Please note – this test is required only for those property owners that have a swimming pool and/or irrigation system.

Completed forms can be dropped at Village Hall or faxed: (516)-627-8419
Attention: Steve Flynn.

Should you have any questions or concerns please call the highway garage at (516) 365-2757 or the Village Office at (516) 627-1748.
