FAX 516-466-2748

PAUL J. SCHRADER, P.E.  
SUPERINTENDENT

March 19, 2020

### COVID-19 UPDATE

In light of the increasing concern surrounding the Coronavirus, the Manhasset-Lakeville Water District would like to reassure our residents that there is no risk to our public water supply. We continue to maintain sufficient chlorine residuals within the distribution system to protect the consumer from viruses and bacteria. Our ability to provide safe potable water and related services will not be interrupted as a result of the ongoing situation.

The District's primary concern is ensuring that our employees and residents are kept safe by keeping interactions to a minimum. We continue to educate our staff on the prevention and precautions necessary to limit the spread of the Coronavirus. To that end, all non-emergency home appointments are canceled until further notice.

We will continue to proactively disinfect our buildings and are coordinating contingency plans to maintain operations in the event our staff is adversely impacted by the virus.
